Choosing a Creative Commons (CC) License

1. Go to the following link on the CC website:
   https://creativecommons.org/choose/

2. Select how you would like your work to be shared by answering the questions in the “License Features” box.

   Note:
   • For details on the options, click on the question mark icon to the left of each question.

3. The corresponding license type will be indicated based on your answers. Click on the license name to review the terms of the particular license.
4. The corresponding HTML for the license will be displayed. Simply copy the URL and email the link to iujur@indiana.edu with subject title “CCLicense_InsertLastName_InsertFirstName” so it may be embedded into your published work.

Note:
- Make sure the **Normal Icon** option is selected for the proper URL.

5. You may also wish to include additional information for your personal license that may assist someone who is attributing your work. If you choose to do so, please complete the form prior to sending the HTML.

If you have any questions regarding Creative Commons Licenses, please contact us at iujur@indiana.edu.
